CLINICAL TRIALS

Ongoing

COVID-19 trials

Other trials

Vaccine-induced protection is the only promising solution for the ongoing COVID-19 pandemic

- 29 partners in 18 EU-member states and 5 countries associated to the EU Horizon 2020 research programme.
- Start February 2021 — duration 36 months.
- Budget of € 12 Million.

VACCELERATE

1

Assist with the mapping of clinical trial sites in 21 European countries for both pediatric and adult trials.

2

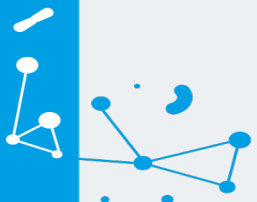

Help establish a transparent site selection procedure.

3

Offer GCP courses for personnel of sites selected to participate in clinical studies.

4

Provide vaccine trial-specific training.
